Chris Aukland BVSc VetMFHom MRCVS

I recall a homeopath once describing their goal with their patients to support them to do more than becoming symptom free, rather to support them becoming shining stars.

With Holistic Lifepath there is a similar philosophy. If you find that applying some of the principles of Holistic Lifepath helps you improve the health of your animals in one way or another, then why stop there? Why not keep going and see if you can yourself become a shining star in the way you look after the animals in your care?

Mastery is always an on going journey of developing new perspectives and new skills. I know many owners who have animals that hardly ever get ill. What is it that they are doing right? How can you develop the understanding and skills needed to have animals with optimum health and vitality through out their lives?

Holistic Lifepath aims to give you the tools and resources to steadily develop your skills to become an amazing holistic owner. For next steps:

- Check the **Courses & Events** page for forthcoming activities.
- Review the **holistic blogs** for articles of interest.
- Visit the **resources** page.

If you want to go further, **get in contact** to give a bit of background on the animals in your care and the goals you have for keeping them healthy using holistic principles.

Depending on the animals you keep, Holistic Lifepath can help you create simple, elegant, clear and empowering approaches to what you do. Every animal owner will have different needs, so the support given will always be individually created for your particular needs. Here are some examples:

Pets

- A holistic care-plan for pets in your care
- Specific support for key times of your pets life

Farm

- A genuinely useful Holistic Farm Health Plan
- On going support through the year

Stables

- Help creating a holistic strategy for your stables
- Individualised holistic plans for your horses

To find out more, get in contact by clicking on the link below to tell us a little bit more about the animals in your care and your ambitions for creating an amazing holistic approach.

Check out the events page regularly for courses to help you learn more:
